Projects

Neighborhood Map – Taipei Main Station Coffee Shops – Nanodegree Project
Web Based – HTML/CSS/JavaScript/AJAX/Yelp API/Google Maps API/Knockout
  - Dynamic map combining Knockout JS Model View and Google Maps API with markers showing the closest coffee shops populated by an AJAX call to the Yelp API

Frogger Javascript Application – Nanodegree Project
Web Based – HTML/CSS/JavaScript/HTML Canvas
  - Clone of the classic game Frogger with Udacity provided assets and game engine.
  - Implemented game entities with Javascript's object-oriented pseudo-classical style.

Code Clicker (Beta) - Project Lead/Developer
Android – Released on Google Play - XML/Java – Android Studio – Github/Git
  - Planned and designed the project and delegated to other team members.
  - Created the full back end in Java which utilized OOP, internal storage and dynamic GUI

Food & Recipe Application (Unreleased) – Junior Developer
Windows 8/Outdated - WPF/C#/XAML – Visual Studio 2012 – BitBucket/Mercurial
  - Built an external library which uses parsers and HTML Agility Pack/XPath to retrieve information and write it to disk.
  - Replicated tests for test driven development and helped debug anomalies in code.
  - Received mentorship from lead developers who both work in the industry (Microsoft/Amazon).

Hot Potato Categories – Developer
Android – Released on Google Play - Java/XML– Github/Git
  - Implemented a countdown timer, difficulty selection, arrays of categories and multi-language support with haptic feedback and sound.

Personal Website/Portfolio/Online Resume – (http://www.kevintyang.com)

Education

The University of Texas at Austin – *B.A in Asian Studies/Business Found.*   May 2012

Udacity Front End Developer Nanodegree Program   Feb. 2016
kevintyang.com/udacityFENDportfolio - Github
 - Completed the six months of course material in 15 days. Averaging one project for every 2-3 days.

Experience

Chungdahm Institute – **Seoul, South Korea**   Nov. 2014–Nov. 2015
Head Instructor
  - Managed a team of 8 teachers and oversaw the integration of a smart curriculum utilizing screen mirroring, projectors, smart textbooks and tablets for 230 advanced students.
  - Hit above average benchmarks for teacher satisfaction and enrollment, resulting in a peak of $60,000 in monthly revenue.

Gloria English School – **Taipei, Taiwan**   Aug. 2012 – Jan. 2014
Foreign English Teacher
  - Worked closely with Taiwanese counterparts to educate ESL students of all ages.
  - Averaged 5 – 10 hours more teaching hours per week due to the popularity of my courses
